ABOUT US

Wealth Development and Management Ltd is a leading property developer of modern luxury buildings that are representation of architecture at its best. We have relentlessly pursued "Putting Quality first" without compromise. After more than decade of thriving achievements , Wealth Development and Management Ltd is now an established name in the world of real estate and construction in Bangladesh.

Wealth Development and Management Ltd has built modern apartments and constructing commercial complexes in mostly prime locations in Dhaka. We do not compromise when it comes to locations, selection of architects, technology, engineering, construction materials, systematic monitoring and reliable after-sales service. Most importantly all our projects are built in compliance with the Bangladesh National Building (BNBC). When planning our structural designs, climatic conditions and changing trends receive our top consideration. We aim to create idealistic surroundings for self contained, independent and distinguished houses in secured and prestigious communities around Dhaka.

OUR MISSION

Wealth Development and Management Ltd aims to look beyond the physical and geographical domains and its scope extends way beyond just building four concrete walls. We address the ever changing trend and need of a transitional urban city. Our commitment to the society and country is to shape up a community that knows and acknowledges a lifestyle that is not limited to only living but a lifestyle that solely concentrates on superior standard of living. Our motto is to put quality and design at the very first and prioritise the needs of modern living standards. We promise to be at best in the real estate game.

HISTORY

Wealth Development and Management Ltd began as a real-estate developer since 2008. Over the years the company has undertaken many challenging projects and accumulated skills, knowledge and experiences in design, build solutions, project management, apartment trades. Today, Wealth Development & Management has earned its place as one of the fastest project delivering companies in the country with putting quality first. We also provide interior solutions to flat owners as added services upon request.
